Macroeconomics. The prefix macro means large, indicating that macroeconomics is concerned with the study of the market system on a large scale. Macroeconomics considers the aggregate performance of all markets in the market system and is concerned with the choices made by the large subsectors of the economy—the household sector, which includes all consumers; the business sector, which includes all firms; and the government sector, which includes all

Macroeconomics is a branch of economics dealing with the performance, structure, behavior, and decision-making of an economy as a whole. This includes regional, national, and global economies.

Macroeconomists study topics such as GDP, unemployment rates, national income, price indices, output, consumption, unemployment, inflation, saving, investment, energy, international trade, and international finance.

Macroeconomics and

~~Macroeconomics — Wikipedia~~

I was conned into buying the 18th edition of this study guides book which cost some \$120 dollars. There is VERY little new data in that book and for what you learn in an entry level macro economics class there is NOTHING worth while of new data in it.
